

IN THE SPECIFICATION

Please amend the specification by substituting the following amended paragraphs for the corresponding original paragraphs.

[0080] "Communication media" typically embodies computer readable instructions, data structures[, ] or program modules, ~~or other data in a modulated data signal, such as carrier wave or other transport mechanism~~ but excludes wireless media. Communication media also includes any information delivery media. ~~The term "modulated data signal" means a signal that has one or more of its characteristics set or changed in such a manner as to encode information in the signal.~~ As a non-limiting example only, communication media includes wired media such as a wired network or direct-wired connection, ~~and wireless media such as acoustic, RF, infrared, and other wireless media~~. Combinations of any of the above are also included within the scope of computer readable media.

A courtesy version of paragraph [0080], without mark-ups, is hereby provided.

[0080] "Communication media" typically embodies computer readable instructions, data structures or program modules but excludes wireless media. Communication media also includes any information delivery media. As a non-limiting example only, communication media includes wired media such as a wired network or

direct-wired connection. Combinations of any of the above are also included within the scope of computer readable media.
